BY DIRECT WIRE—EXCLUSIVE DISPATCH

ALTIMORE (Md.) July 31.—The Bremen, second of the Sub Sea Line, is due inside the three-mile limit before daylight, and the Deutschland, which has been snugging the foot of Andre street, will go down the river probably early tomorrow morning. The Bremen is now seventeen days at sea and was due yesterday. These facts were let slip this afternoon by a member of Capt. Paul Koenig's crew. He saw saying good-bye to a friend and was overheard. The information tallies with other facts learned today. The Neckar either leaves the pier or, at all events, stops the Deutschland crew, the police and the watchman at the dock of the Eastern Forwarding Company, for the steward has gone to the United States.

"Well, tomorrow you won't be fed here," said a man on the Neckar to one of the city policemen.

At 12:36 p.m. the Thomas P. Timmins started its engines and casting a line to the barge George May, towed the obstructing scow away.

With One Mighty Bound the Anglo-French Troops are in Combes.

Movement is Said to be the Most Important Advance of the Allies.

BY FRED D. PITNEY.

PARIS, July 31.—Two days of fine weather have permitted the Anglo-French forces to take up once more the offensive on the Somme front. With one great bound they have pushed forward to the outskirts of Combes. They are up to the last German line of defenses here, and at one point on the tip of the Monacu farm are in possession of a piece of the last line.

This is the most important step of the need to force the enemy and under favorable conditions enter the Chesaapeake, was obtained several days ago. Since then there may have been a change in plan. It is hardly likely that on the instant of the Bremen could be informed of developments along our coast, and change his course as he comes.

Positive information that the second of the need to force the enemy and under favorable conditions enter the Chesaapeake, was obtained several days ago. Since then there may have been a change in plan. It is hardly likely that on the instant of the Bremen could be informed of developments along our coast, and change his course as he comes.

Out of the guessing contest has emerged the following:

Obviously, the Germans will not sail the Bremen to Baltimore, where attention has already been riveted on the Deutschland. Therefore, the allies may neglect the Chesaapeake would then become an experiment with the allies, but the difficulties already overcome by the port of Hail and Foch.

GERMANS YIELD.

Two weeks ago the French captured the Hill 139. It was not until nightfall last evening that the Germans gave up their desperate attempt to take the hill. The attack after a series of German officers led against the crest line, the French machine guns, placed in position in the nick of time, poured a withering fire on the advancing column, and the fortresses which Germans built to hold back the French was too well constructed to be taken by our own assault.

At dawn the French not only had consolidated their grip on Hill 139, but had also swept on toward Ciercy and opened a breach in the German line at the crest of the hill at that point. All along the front to Hill 139 Foch's troops are now across the narrow gauge railroad running from Combes to Peronne, which the Germans use to their port point of their main defense line. Simultaneously, work at the crossing of the Ginchy railroad roads fell before the swift onslaught of two picked French battalions, putting the enemy in a critical position at Ciercy as well as at Gouy.

GERMAN LINES BOMBARED.

The bombardment of the German lines from the heavy guns had been in progress for several days. The German authorities had been informed that the British had been in the rear of the German lines.

Dillon Brings up Irish Question in Commons Again by Motion Asking Government to Disclose its Plan for Ruling Island During War—New Chief Secretary, Succeeding Birrell, Appointed.

WASHINGTON, July 31.—A personal appeal in behalf of Roger Casement has been made to Senator Lodge.

IRISH QUESTIONS UP AGAIN.

BY ATLANTIC CABLE AND A. P.

WASHINGTON, July 31, 5:10 p.m.—In bringing the Irish situation to the front again in the House of Commons today by the introduction of motion, Sir Edward Birrell, the new Chief Secretary for Ireland, was skeptical about the reports, but it now appears that the main facts are as stated, namely that any application had been made to him for a passport to go to America to collect funds for agricultural purposes.

Mr. Birrell said he was not aware that any application had been made to him for a passport to go to America to collect funds for agricultural purposes.

The Home Secretary said there was no desire to place any difficulty in the way of the collection of a fund for agricultural purposes.

He said that the Dublin rebellion and any application for a passport would be considered on its merits.

Sending Red Cross Supplies is Held Forbidden.

Suggests Medicines be Sent to Hospital Units.

BY A. P. NIGHT WIRE.

WASHINGTON, July 31.—With the apparent intention of closing the negotiations by which the United States has endeavored unsuccessfully to secure permission to send Red Cross supplies through the allied blockade lines into Germany and Austria, the allies' governments have waited through Ambassador Page at London a detailed summary of their reasons for refusing such permission.

Hughes is invited
BY WOMEN'S PARTY.

BY A. P. NIGHT WIRE.

COLORADO SPRINGS (Colo.) July 31.—Announcement that Charles M. Hughes has been invited to address the women's party national conference here August 12-13, followed as previously made a declaration in a statement today from Anne Martin of Nevada, national chairman.

The statement said:

President Wilson should advise Congress to adjourn without taking action on this measure as he was securing action on the child labor bill.

Hughes' statement does not mean that our support will be given to Justice Hughes in the election. That will depend on the platform he takes on national suffrage.

Neither the Democratic nor the Republican leaders does all in his power to help the cause, and we, as a party, are of course of action open to our support to one of three minority parties, which are wedged to national suffrage.

We are, however, a ticket of unity in the field in the suffrage cause, drawn from the many strong women who are active members of Women's Party.

Expressing the hope that Mr. Hughes' position will make it possible for him to speak at the conference, the national committee should be remembered, however, that the primary object of the cause is not to hold mass meetings but to bring together the State, national and local units of the party and of the woman's party in the suffrage States where 4,000,000 women voters may be swing for the cause.

Women voters can determine who the next President will be. The use will be made of the fact that what President Wilson and Justice Hughes do in regard to national woman suffrage between and the meeting of our conference on August 16.

LABOR PLANS
OF THE DEMOCRATS.

BY A. P. NIGHT WIRE.

WASHINGTON, July 31.—Vance G. Coffey, Democratic national man, conferred with President on today on a final selection of Democratic Campaign Committee and details of special work to be done in various States. Mr. Coffey also met with several Senate Representatives and Cabinet members.

Campaign committees will not meet for several days.

REASON FOR REFUSAL.

His Majesty's government have given close consideration to the question of whether they could be utterly unable to evolve any system by which general shipments of medical supplies, one person to one, could be within limits at all. Their reasons for not allowing unlimited supplies to go in have been established.

It is now agreed that the Geneva convention obviously does not apply.

It is now agreed that a neutral commission should be appointed in Germany to receive imported medical supplies and distribute them to the German government. This suggestion offers no means of restriction in any way to the amount of supplies imported. To meet this objection it is recommended that the allied governments should specify the kinds of amounts of medical supplies, the importation of which into Germany will be allowed to go in.

It is now agreed that the Geneva convention obviously does not apply.

With the aviators perched several hundred feet in the air, sailing around in circles, officers who are familiar with submarines say they cannot see how they could fail to locate the German submarine. One pilot said he could not see it at all. Their reasons for not allowing unlimited supplies to go in have been established.

AND ENVIRONS.**
EVENTS BRIEFLY TOLD

Underwriters to Die.

The Los Angeles Fire Underwriters Association will hold a banquet in the Bristol Cafe this evening at 8:30 o'clock. J. R. Maloney of San Francisco, president of the California Underwriters, Frank J. Farnsworth, Louis M. Cole, former president of the Los Angeles Chamber of Commerce, will be the principal speakers.

To Study War Surgery.

Dr. Fred W. Rinkenberger, made an application for a passport at the office of the clerk of the United States District Court yesterday. He stated in his application that he is desirous of spending six months studying surgery in Sweden, Denmark and Germany. He will sail from New York September 14.

In Honor of Riley.

Lovers of poetry of James Whitcomb Riley will meet Thursday morning at 10:15 o'clock at Cummock School, No. 1534 South Figueroa street, the author of the famous Hoosier writer with a short memorial service. Some of Riley's best poems, including a few which are not known to the public, will be read by Dr. T. R. Maynard, a member of the faculty of the school. All interested persons are cordially invited to be present.

For Nature Lovers.

The Los Angeles Natural History Club will meet at 7 o'clock Friday evening at the home of Mrs. M. Burton Williamson, No. 2242 Ocean View avenue. Beginning in September the club will hold public lectures each month for associate members. Lectures on natural history subjects will be given and there will be field trips. The club is open to all club members at No. 1851 West Twenty-third street. Co-operative Insurance.

All civil service employees in the city have been invited to attend a meeting at 8 o'clock tomorrow evening at the home of Mr. Carter Anderson, for the purpose of co-operating in developing a mutual life insurance association. Speakers will include: Alfred Price, superintendent of municipal machine shops; Archibald T. Stowell, superintendent of High School, and others. The meeting will be open to everybody interested.

Government Job Open.

United States civil service examinations will be held August 16 for an engineer qualified to operate a "canshovel" who will be employed on the work at Fort MacArthur. Applications for the position will be filed at 11 a.m. on that day. Only persons with ability and experience will be considered. Applicants must be over 18 years of age, and must have completed an examination and examination blanks and file the applications prior to the hour of closing business on August 16, with the secretary of the board of civil service examiners at 723 Central Building.

Students to Picnic.

Students in the summer session of the University of Southern California will abandon their books for an hour tomorrow to enjoy an old-fashioned picnic lunch on the lawn of the college of liberal arts. Box lunches will be prepared by students at Mrs. John D. Hooker's residence, No. 225 West Adams street, near the Grand avenue car line. The picnic will be held in the ideal out-of-door schoolrooms and playgrounds for the school. Automobiles will convey pupils to the school as desired. Until September 1 students may have a picnic during the morning at No. 426 West Adams street, telephone, 22269, West 4522.

Disposition.

ESTATE TO CHILDREN.

Seven of them will share property left by widow of a late land operator—Total value placed at a hundred thousand dollars.

The will of Mrs. Constance C. Smith, died yesterday in the probate department of the Superior Court, by her terms divided among her seven children an estate valued at about \$100,000. The bulk of the property is real estate located in Los Angeles, Riverside and Orange counties. With the exception of the home place at Altadena, which is given to Miss Clara A. Smith, the estate is to be divided equally.

Mrs. Smith was the widow of the late James Smith, land operator, and died July 22.

NORTHERN DRY LAW DEFENDED.

Bishop Leonard Says Seattle is not Hurt Thereby.

Declares Business is Better than in "Wet" Times.

And that Drug-store Evil is Vigorously Dealt With.

Bishop A. W. Leonard, formerly of the Methodist Episcopal Church in California, yesterday made the following statements relative to the effects of the Washington "dry" law.

"A letter appearing in the Sunday Times of July 30 as special correspondence from Seattle, contains so many untrue and misleading statements (as I regard them) that I cannot allow it to pass without offering some defense of the prohibition law which is now operative in the State of Washington."

The statement regarding the decreasing values of real estate is not entirely true, but untrue in most instances where saloons formerly existed the places are now occupied by legitimate forms of business.

In some cases, rents have more than doubled, and in many instances the rents have increased in various sections of the city. In support of this statement, Mr. Leonard, a member of one of the largest real estate firms who informs me that real estate is today in a very much better condition than it was before the adoption of the law. As property owner in the city of Seattle I know that rent for certain residence properties is higher than it was six or seven months ago. The author affirms that this correspondence has not stated what are the real facts concerning this matter in regard to rents.

BUSINESS IS BETTER.

"Second—Capital is scarce off Seattle in a business way is today struggling desperately to keep it held above water."

The last four or five years have been times of financial depression, not only in the Northwest but throughout the country, and except for the war, Seattle was spared by munitions plants and allied industries as a result of the European war. Seattle, like all other cities, has suffered, and depression has lasted the past five or six years. But the facts are she is better off today than she was under the wet regime. Major business men, like Mr. Leonard, who opposed the prohibition law and through his very influential paper did his best to defeat prohibition in the State of Washington, above his paper, has made the following statement:

"We all know that it [prohibition] is a great benefit mainly and from the financial standpoint. Its moral benefit has been tremendous. Seattle has 260 saloons, and we had an average of 100 arrests a month for wine and moonshine, and 100 arrests out of the liquor traffic. In January we had only 400 arrests, and nearly all of those were made in January. We know it is any month before, in all the history of the city, except in holiday time. In all the last three years we have been financial immobile. In addition to this, every dry goods store in Seattle, except one, and that one I have no figures for, had a wonderful increase in business. Each store reported the largest business ever done in one month, except in holiday time."

THE TOURIST QUESTION.

"To say that tourists are driven away from Seattle is not entirely true. Undoubtedly there are not as many tourists this summer in Seattle as there were a year ago. Neither are there as many tourists in San Francisco and Los Angeles as there were a year ago. This is due to the fact that the San Francisco fair was in operation at that time, and it was to a large number of people who would not otherwise have come.

After the prohibition law went into effect, the number of drug stores opened for the express purpose, it would seem, of evading the law and selling liquor. These places had been very carefully watched, and every drug store that was in business before prohibition went into effect, and every drug store that has come into existence since, has been very carefully watched, with the result that scores of druggists are now in the embarrassing position of giving good reason why their licenses

should not be withdrawn. A large number of these stores have already been closed and the law is being rigidly enforced.

The morals of the city are vastly better than they were preceding the present prohibition law. Women and children are better cared for. There are fewer automobile accidents. The churches have larger congregations. The business men of Seattle are convinced that prohibition is vastly better for them than the open saloon."

Going Ahead.

SHOWS GENERAL BUSINESS GAIN.

Issuance of Monthly Report Reveals Sturdy Strides.

Bank Clearings Establish a New High July Mark.

Receipts of Federal Offices Also Register Advances.

MAN'S GALLANTRY NEARLY ENDS DIVORCE CASE.

Wife Mounting to Witness Stand Trips and Falls and Policeman-defendant Springs to Her Aid. But Trial Goes on and He Accuses Mother-in-law.

A reconciliation in a broken family is almost effected yesterday when the wife and her child fell to the floor in front of the witness stand of Judge Wood's courtroom.

The plaintiff is Mrs. Marion Crandall, suing for separate maintenance from her husband, Patrolman E. A. Crandall. The young woman, with her 2-year-old son in her arms, started to take the witness stand when she slipped and fell. Her husband was at the side in a moment. Picking her up, he held her tenderly in his arms and she smiled.

But the mother of the young woman is not as high as the saloon. The reason plain. She is a woman of high ideals and her conduct makes it possible to pay an abnormally high rent. Since the saloons went out of business rents went up. In fact, have gone up more than in many instances the rents have increased in various sections of the city. In support of this statement, Mr. Leonard, a member of one of the largest real estate firms who informs me that real estate is today in a very much better condition than it was before the adoption of the law. As property owner in the city of Seattle I know that rent for certain residence properties is higher than it was six or seven months ago. The last four or five years have been times of financial depression, not only in the Northwest but throughout the country, and except for the war, Seattle was spared by munitions plants and allied industries as a result of the European war. Seattle, like all other cities, has suffered, and depression has lasted the past five or six years. But the facts are she is better off today than she was under the wet regime. Major business men, like Mr. Leonard, who opposed the prohibition law and through his very influential paper did his best to defeat prohibition in the State of Washington, above his paper, has made the following statement:

"We all know that it [prohibition] is a great benefit mainly and from the financial standpoint. Its moral benefit has been tremendous. Seattle has 260 saloons, and we had an average of 100 arrests a month for wine and moonshine, and 100 arrests out of the liquor traffic. In January we had only 400 arrests, and nearly all of those were made in January. We know it is any month before, in all the history of the city, except in holiday time. In all the last three years we have been financial immobile. In addition to this, every dry goods store in Seattle, except one, and that one I have no figures for, had a wonderful increase in business. Each store reported the largest business ever done in one month, except in holiday time."

THE TOURIST QUESTION.

"To say that tourists are driven away from Seattle is not entirely true. Undoubtedly there are not as many tourists this summer in Seattle as there were a year ago. Neither are there as many tourists in San Francisco and Los Angeles as there were a year ago. This is due to the fact that the San Francisco fair was in operation at that time, and it was to a large number of people who would not otherwise have come.

After the prohibition law went into effect, the number of drug stores opened for the express purpose, it would seem, of evading the law and selling liquor. These places had been very carefully watched, and every drug store that was in business before prohibition went into effect, and every drug store that has come into existence since, has been very carefully watched, with the result that scores of druggists are now in the embarrassing position of giving good reason why their licenses

should not be withdrawn. A large number of these stores have already been closed and the law is being rigidly enforced.

The hearings of the cases of teachers who were not re-elected to the Board of Education have not been completed, delay having occurred on account of Mrs. B. J. proper conclusion in order to afford the desired relief.

I refer to the desire of the attorney to have me to secure more specific statements from the strikers against the men at work.

The attorney stated that Judge Conroy, in the same court, in a decision ten years ago had declared the use of the word "scab" an "obnoxious term" and the strikers have used it that it is libelous and has no social value.

He urged that it was not necessary to include all the vile language in the strike.

The figure, furnished for the collection, was signed by Collector Elliott. Elliott indicates a big increase in receipts and imports for that period. The collections amount to \$1,000,000.00 in the same month last year, while the value of imports has jumped from \$361,000 to \$367,000.

A part of the action was to gain custody of the boy. The defendant claimed that if his wife obtained custody of the boy, he would be unable to see him.

"One thing is certain," said Judge Wood, "and that is to give the wife the boy. Her mother, her pastor, I know that rent for certain residence properties is higher than it was six or seven months ago. The author affirms that this correspondence has not stated what are the real facts concerning this matter in regard to rents.

TO FILM BIG WOODS.

Government Attaches Arrive here to Make Picture Serial of Angeles National Forest for Use in Proposed Advertising Campaign.

The scenic fame of the Angeles National Forest has gone abroad in the land, and yesterday C. J. Blanchard and H. T. Cowling, government attaches arrived in Los Angeles for the purpose of making a motion picture film of otherwise to be used in exploiting the national forest as a recreation ground for the public.

Supervisor Charlton will this morning accompany the gentlemen to various points in the mountains, and among other places will be the area where the timber is the best ground located on the Sespe Plaza. Pictures will also be made in the most picturesque spots in San Antonio.

The local press is acknowledged to offer the most conspicuous examples of how the big woods can be used for tourism, laundries, the pines, and the growths of the national forest to insure a policy of advertising that what has been accomplished in the Angeles National Forest is in.

Double Header Gives Giants Six Straight Wins.

Tereau Allows Only Two Scratch Hits.

New York Uses Infield that Won Three Titles.

(By A. P. NIGHT WIRE) NEW YORK, July 31.—New York today repeated its performance of last Saturday and won another double-header from Pittsburgh, the scores of each game being 7 to 0. The Giants now have won six straight games, having hit the Pittsburgh pitchers hard in both games, while both Salled and Tereau pitched invincible ball. In the second game Tereau permitted only one scratch hit, and struck out eight men.

Fletcher was back in the game for the first time in nearly a month and infield with which he won the championships of 1911, 1912 and 1913. The score:

JITNEYBUS LAW

LONG BEACH, July 31.—Hoping that the move will restore a certain amount of business to the Pacific Electric, and at the same time save the intercity street car system of Long Beach, threatened because of jitney-bus competition, radical legislation regulating the operation of the automobile passenger-carrying vehicles was now in the process of preparation by Safety Committee.

The new law comes at a critical time in the transportation problems in this city. It is hoped by city officials that the proposed ordinance will remedy conditions to the extent that the city of El Segundo will continue to attempt to abandon the seventh-street car line, or other holdings now imperiled and being sold at a loss because of the uncertainties.

A feature of the new ordinance that will complete the revolution will be the provision barring the gasoline conveyances from streets upon which the Pacific Electric runs.

This means the razing of the houses of Amusement and Pine avenues and Broadway, three of the main business streets of the city.

This will be the handiest blow ever administered to the oiler operators in El Segundo.

A third ordinance upon which the public will be compelled to operate, will also be included in the ordinance. That is the principal other drastic feature of the new proposed law.

In conjunction with this provision, a terminal manager or traffic officer will be provided to clock the speed of the cars, and that officer will not be liable. The traffic officer will be held responsible, to a large extent, for the enforcement of the main features of the new ordinance.

The passing of the new ordinance, which will be ready for introduction and passage in about a week, will mean that the traffic officer will be restricted to the plan of fair treatment of the Pacific Electric and others who have threshed out the new ordinance, and that in the time schedule and street restriction features have been included.

It is expected that, by withdrawing the jitneys from streets on which car lines are now in operation, the transportation situation will be restored to normal, said Safety Committee today. The street cars will be enabled to double their business by the removal of the jitneys from the streets, and the jitney lines into new fields that are now without proper transportation.

REPUBLICANS CELEBRATE.
Celebrating the notification to Henry on the Pacific Coast that they were nominated on the Republican ticket for President and Vice-President, respectively, prominent local Republicans gathered at the 15th street of the De Luxe Cafe, for speech-making and a general jollification.

TOWNSEND of this city presided in the capacity of toastmaster. Attorney George R. Adams of Los Angeles was the principal speaker. Dr. James W. Penfield, Bishop of the Los Angeles tonight, was the feature of the day's session of the Long Beach Assembly and Bible Conference, which opened in Los Angeles until August 15. Dr. Penfield spoke to a big gathering at the First Methodist Church.

Dr. Frederick J. Kershner of St. Louis, the principal convention speaker at the Southern California Christian convention, just closed, this morning, will be "seen" here as an Interpreter of Life. Tomorrow morning he will speak on "The Building of a Soul."

During the week five addresses will be given by Dr. Paul Smith of Fresno. The first public reading of "Miss Elizabeth Miller of America" is scheduled for Tuesday afternoon.

The biggest scheduled feature of the week's programme is expected to be the address of Dr. David Starr Jordan Friday evening in the Auditorium, on "Great Lessons of the War."

PARADEA, Aug. 1.—Miss Minnie West, a waitress, who set out from the Mt. Wilson Hotel last Saturday for a walk and did not return, and for whom employees of the hotel and forest rangers have since searched, was found early yesterday morning at the bottom of a long sandy slope mountainside 100 feet deep. She had been without food since last Saturday and was exhausted with trying to climb back up the hill and in calling for help.

The young woman thought, as she lay down in the place, that it would be easy to return, but when she

WAR BRIDE IS
WED BY WIRE.

BY R. NIGHT WIRE.

CALIFORNIA, July 31.—J. P. Crotter, a private of the Washington National Guard, on duty here, and Miss Florence Sweeney, at Duquesne, Pa., were united in marriage by telegraph last Saturday. It was stated here today. Ministers and witnesses, it was said, participated in the ceremony here and at Duquesne.

Chaplain S. S. Sullivan of Vancouver, Wash., officiated at Caledon. The entire wedding ceremony was repeated by the telegraph between the soldier and his bride in Pennsylvania.

The couple, it was stated, had been friends for years. Crotter's sister was married recently to Miss Sweeney's brother and Miss Sweeney then renewed her acquaintance with her brother-in-law.

A proposal by mail, followed by a reply of acceptance, was said to have led to the telegraphic marriage.

The confession promised by his counsel, Adam Thompson, was not made by Barber, whose arrest and trial were the most sensational ever held here. He was given five years for the embezzlement of \$2500 from the account of Mrs. McAfee, her earnings as a seamstress, and three years for the embezzlement of \$1500 from the account of Mrs. Besse Malorn, to which charge he pleaded guilty.

The other charges, including that of embezzling \$10,000 worth of emeralds from Walter Dupree, were dropped. He is now in the San York Canyon and then fell exhausted beside the stumps of some old trees. It was there her rescuers found her. The police, it was said, will be sent to San Quentin Wednesday.

A legal point is being debated as to whether he can be held to appear in court in case he is brought against himself on August 10 to give an account of the Bolink estate of \$40,000 of which he was accused and which he has disclaimed.

Shocking.
STATE'S GREED TAKES A LIFE.

"Economy" Cause of Woman's Death in Asylum.

Left Unguarded and Slain by Another Patient.

Misery by Extravagant Administration Barred.

Mrs. Mary J. Morton, the woman with a withering brain, who was fatally injured when pounced upon by a ferocious fellow-patient at Palmdale, was revealed yesterday as a martyr to the niggardly economy practiced by the State administration in the handling of State institutions, to counteract wastefulness in other departments.

She received fatal injuries because the State refused to provide a sufficient number of attendants to protect the patient, and also because the State violated its own laws by compelling the women to work eleven hours daily.

Her death was no mystery—only a shameful expose of State misrule—when the Coroner's jury summed up yesterday the various witnesses who told the full details of the patient's death. The verdict of the Coroner's jury was: "Mrs. Mary J. Morton came to her death through acute dilation of her heart, probably hastened by an infection upon her heart, Blanche Coitrin, in the same ward."

Dist.-Atty. T. W. Duckworth of San Bernardino county, who was present when the Coroner's jury was to make a post-mortem investigation of conditions in the State asylum that permitted such a tragedy to occur, and if he found any indication of criminal conduct, would have brought about by parsimonious administration on the part of the State, he would take his findings to the proper authorities.

STORY OF ASSAULT.

The true details of the attack upon the dead woman were told by Mrs. Blanche Coitrin, a nurse in charge of Mrs. Morton, who said she was one of the first to notice a group of girls containing fifty patients in that she worked eleven hours a day. In this great ward, she said, she alone was present with Blanche Coitrin, a young, vigorous, prima donna, domineering and ferocious, pounced upon Mrs. Morton, striking and clawing with her hands, and beating the stricken victim with her knees.

Coitrin, who is about one-third as tall as Mrs. Morton, but one-third as heavy, a wraith weighing but sixt pounds, her limbs contorted with rheumatism, her bones brittle, and her teeth showing a spasm of a spasm's size. With her brain withering, her body, too, was wasting away under the ravages of a disease.

The blows of Blanche Coitrin's fist broke her right arm above the elbow. The blows of the assailant's knee fractured Mrs. Morton's right knee.

Because the victim had been helpless and constantly complaining the attendants and doctors at the hospital did not notice the blow until the second day following the assault. When the injuries manifested themselves in blue welts on the patient's body, these bones were removed to the hospital for treatment, and the injuries were found to have been inflicted by an insane woman.

But throughout the giving of testimony there recurred the statement that the patient was the patient was all that was possible under the restricted appropriation allowed by the State. Again and again it was repeated that the State is spending more than ever before. It can not provide decent protection to its children with faltering brains.

And the witnesses were Dr. John Reilly, who has charge of the Patton asylum; Dr. Jessie Simpson, second assistant surgeon; Autopsy Surgeon; and other members of the County Hospital staff.

Interested in the examination of the witnesses were Mrs. Margaret Stroh, member of the State Board of Control, and Coroner's Juryman Mrs. Carrie P. Bryant, vice-president of the State Board of Charities and Corrections and chairman of the Committee on Insane and Defective. They refused to comment on the testimony, dealing with the inadequate protection and accommodations given the insane, saying it is a matter for further investigation and adjustment.

Government Adjudged Winner of Famed Dead Mule Case.

The Occidental Construction Company does not get the value of the missing mule supposed to be resting somewhere in a mors of the Mojave Indian Reservation by the judgment of U. S. District Judge Trappet, delivered yesterday. The court held that there had been no showing by the construction company that the mule had been lost through the negligence of the government, and therefore there was no cause for action.

The Occidental Construction Company is in the action against the government and amounted to about \$4000, but all the plaintiffs got was a judgment of \$1000 covering the loss of equipment of the mule outfit and of loading the mules from the corral to the cars after they had been sent by the Tax Assessor of Mojave county.

Mexican Who Assailed Woman Given Fifteen Years' Sentence.

Superior Judge Craig yesterday sentenced Ignacio Ramirez, who pleaded guilty to making an assault on Flavia E. Rhodes, an old lady 65 years of age, to 15 years in the penitentiary of Folsom. The crime was a brutal one, the Mexican robbing the house and then assaulting the old lady. He made no defense.

Supreme Court's Decision of Epoch-making Import.

Holding that an adopted child cannot inherit from its natural parents, but that it can through a grandparent, the State Supreme Court handed down a decision yesterday on an issue that had never before been legally determined in California.

The case at issue went up on appeal from the Superior Court of Ventura county, and the style of the action was John Darling and William Boozy, guardian of the estate of Arnold Darling Bennett, a minor, against David Darling Bennett, his wife, Edna Bennett, and the boy, who is 19 years of age, assumed the name of Arnold Darling Bennett.

When his grandfather died, the boy was 11 years old, and the estate that would come to him after his death. The verdict of the Coroner's jury was: "Mrs. Mary J. EFFICIENCY FOR COUNTY DANCING.

OFFICIAL INVESTIGATION OF FANCY STEPS AT BEACH.

Lot of Perfectly Good Time Used by Commission to Learn Views of Young Women on Terpsichorean Performances of Court-house Employees at a Picnic.

Efficiency in county dancing will be the newest wrinkle if the Board of Supervisors and the County Efficiency Commission go very far in the direction they started yesterday.

Then there is more to be done. The Efficiency Commission, which will investigate almost anything, recently took up the matter of discovering the employment of county employees made by the various departments.

The Efficiency Commission, which is one of the interesting features of the case that it is the first reversal of Judge Rodgers' decision that the reversal was incurred by his predecessor on the bench, R. M. Clarke.
